## CHLOR\*RID DTS™ (Direct-to-Surface) DATA SHEET

**DESCRIPTION:** CHLOR\*RID DTS™ is an organic bonding chemical blend which aids in the removal of chlorides, sulfates and nitrates and most other soluble salts; contains no volatile organic compounds (VOC's) and is biodegradable.

- \* Color: Light Green
- \* Single Component
- \* Typical Coverage: 300 square feet per gallon
- \* No VOC's
- \* Shelf Life: 36 months
- \* pH 3.4 (+/- .2)
- \* Application temperature: +32 °F
- \* Packaging: 1/5/55 US gallons

**USES:** CHLOR\*RID DTS™ is recommended as a hand wash solution prior to application of primers or coatings on a variety of surfaces, including ferrous and nonferrous metals, wood, plastics, and others. For a full list contact manufacturer.

**SURFACE PREPARATION:** Best surface preparation yields the best results. If hydrocarbons are present, they should be removed prior to salt removal. Barrier materials, such as rust or scale or delaminated coatings should be removed prior to salt removal. Sufficient mechanical force may be utilized so barrier materials are removed as part of salt removal procedures.

**APPLICATION:** Application methods vary. See Directions.

Before and after cleaning a small sample area, test the surface for contamination. Rewash as necessary and retest to assure desired cleanliness is achieved. It is not necessary to use the entire contents. Partially filled containers should be tightly closed.

**EQUIPMENT CLEANUP:** Flush with clean fresh water.

**WARRANTY:** CHLOR RID International Inc warrants this product to be identical in chemical and physical properties from batch to batch within the specification limits of the raw materials used in their manufacture.

**SAFETY PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Do not mix with other chemicals. See Material Safety Data Sheet for full precautions prior to use. This product is intended for professional use only. Made in U.S.A.
